Associate Product Manager – AI Systems, SaaS Product Discovery & Cross-Functional Execution – B.Tech CSE, VIT-AP University

Skills

Data & Analytics: SQL, Python, Mixpanel, PostHog, Google Analytics, Funnel Analysis, A/B Testing, Hypothesis Framing, Databases
Product Management: PRDs, User Stories & Acceptance Criteria, Product Discovery, Customer/Market/Competitor Research, Usability Testing, Wireframes & Process Flows, Backlog Management, Sprint Planning, Agile/Scrum
Collaboration Tools: Jira, Confluence, Figma, Miro, Notion, Git
Technical Fluency: REST APIs, cloud platforms (AWS), LLM APIs (OpenAI, Anthropic), AI-assisted prototyping & development (Claude, Cursor)
Certifications: AWS Cloud Foundations, AWS Cloud Architecting

Professional Experience

1000xdev — AI-Native Product Studio (Remote) Feb 2026 – Jul 2026

AI Product Management Intern | Clients across India, New Zealand, and Dubai

- Owned the product cycle end-to-end for **15+ clients** — ran discovery calls and customer research, then wrote PRDs and user stories with clear acceptance criteria, building working demos so clients could validate ideas before committing engineering resources.
- Translated ambiguous client asks into implementation-ready feature specs and user stories, aligning Engineering, Design, and Business stakeholders on scope, with **10+ specs** moving directly into production and rework cut by resolving misunderstandings pre-build.

VyapGO — Fintech for MSMEs (Vijayawada) | vyapgo.vercel.app Apr 2025 – Jan 2026

Founding Product Manager

- Owned product decisions for a billing and inventory app live in production and used daily by **50+ merchants**, running customer interviews and balancing merchant feedback against roadmap priorities.
- Ran funnel analysis in Mixpanel to pinpoint a **20% sign-up drop-off**, then designed and shipped A/B-tested product changes that raised first-transaction completion by **90%**.

DasetAI — Data Infrastructure SaaS (Vijayawada) | daset-ai-main.vercel.app Dec 2024 – Apr 2025

Founding Product Manager

- Directed product strategy for an AI data-quality & cleaning SaaS tool across **10+ pilot customers**, cutting manual data-fixing hours by **80%** versus their prior process.
- Ran a 2-week release cadence by converting pilot customer feedback directly into a prioritized backlog and sprint plan, keeping every pilot live with only **2 major outages** across the program.

Program Leadership

RECON 2026 — National Cybersecurity Workshop | reconhq.tech Apr 2026

Lead Organizer | VIT-AP University

- Owned planning and execution for a national event with **600+ participants** — managed a **Rs. 80,000+ budget**, coordinated the AWS cloud-partner relationship, and led speaker/vendor logistics across 3 days with **zero major issues**.

University ML & AI Workshop Apr 2025

Instructor — Machine Learning & RAG | VIT-AP University

- Designed and delivered a curriculum on ML and RAG fundamentals to **100+ engineering students**, distilling complex technical concepts into accessible, structured lessons.

Independent Projects

NotifyME — Multi-Agent Fraud & Scam Detection System | notify-me-tau.vercel.app

- Built a fraud/scam-risk alerting system that cross-validates signals to cut false alarms by **72%** versus single-source checks, correctly triaging **100+ user-submitted reports**.

RelAI — Multi-Agent AI Trust Engine | rely-ai.vercel.app

- Scoped requirements and shipped solo an AI reliability product, running structured test-case validation across **20 queries** that catches **70% of incorrect or made-up answers** while sustaining **50 requests/sec** at **100ms average response time**.

Vacuum OS — Deep Work Platform | vacuum-os.vercel.app

- Launched a focus-work product to **25+ active users** averaging **45-minute sessions**, running live A/B tests via PostHog without disrupting active sessions.

Education

VIT-AP University, Amaravati, India

B.Tech, Computer Science and Engineering

- Relevant Coursework: Data Structures & Algorithms, Operating Systems, Database Management Systems, Machine Learning, Deep Learning, Reinforcement Learning
